

Program: BH074 – mid-year entry enrolment structure

First-year student (Midyear Entry 2019)

Year Three of Program

For Semester 2 2019, you should enrol in the following courses:

EEET2572 – Research Methods

AUTO1006 - Vehicle Power Systems

MIET1077 - Mechanics of Machines

MIET1084 - Finite Element Analysis

For Semester 1 2020, you should enrol in the following courses:

AUTO1019 - Management of Vehicle Design and Research

MIET1076 - Mechanical Vibrations

MIET2116 - Engineering and Enterprise

MIET1071 - Solid Mechanics 3

Year Four of Program

For Semester 2 2020, you should enrol in the following courses:

OENG1167 – Engineering Capstone Project A

MIET2006 – Automatic control

Program Elective

University Elective

For Semester 1 2021, you should enrol in the following courses:

OENG1168 – Engineering Capstone Project B

MIET1081 – Heat Transfer

AUTO1014 – Vehicle Handling and Control

Program Elective
