# Credit and Enrolment Information BH076 – Bachelor of Engineering (Sustainable Systems Engineering) (Honours)

Program: <u>BH076 - Bachelor of Engineering (Sustainable Systems Engineering) (Honours)</u>
Prior Program: <u>AD026 - Associate Degree in Engineering Technology</u> (Mechanical Major)

# **Enrolment Plan**

For students articulating during Semester 1, 2020, below are the courses you should enrol into.

#### 2020 Enrolment

#### Semester 1

- OENG1206 Digital Fundamentals
- MIET1081 Heat Transfer
- MIET2385 Systems Engineering Principles
- MIET2383 Sustainable Systems Design

#### Semester 2

- CIVE1186 Introduction to Environmental & Sustainable Systems Engineering
- PROC2128 Introduction to Chemical Engineering
- CIVE1180 Transport Engineering 1
- MIET2384 Advanced Life Cycle & Systems Assessment

## 2021 Enrolment

# Semester 1

- OENG1167 Engineering Capstone Project Part A
- MIET2116 Engineering & Enterprise
- 2 x Year Four Technical Options

#### Semester 2

- OENG1168 Engineering Capstone Project Part B
- MIET2039 Applied Heat & Mass Transfer
- AUTO1928 Sustainable Transport System
- Year Four Technical Option

Please consult the <u>BH076 Program Handbook</u> as well as <u>BH076 Enrolment Program Structure</u> for more information.

## **Awarded Credit**

- OENG1166 Introduction to Professional Engineering Practice
- MATH2393 Engineering Mathematics C
- OENG 1204 Creative Engineering CAD
- MATH2114 Numerical Methods/Statistics for Engineers
- MIET2422 Fluid Mechanics of Mechanical Systems
- CIVE 1265 Civil and Infrastructure Engineering
- MIET2421 Applied Thermodynamics
- EEET2249 Introduction to Electrical and Electronic Engineering
- MIET2115 Mechanics and Materials 2
- OENG1208 Engineering Science
- MIET2381 Sustainable Engineering Materials
- EEET2449 Research Methods for Engineers
- 2 x Technical Options
- 2 x University Electives

# Total: 192 credit points

192 credit points remaining for program completion
